

C1. Speech
C10. Music
C11. Song
C15. Speech

*Inferred component responses
from human ECoG*

C1. Speech

Bar chart for C1. Speech from human ECoG. The chart shows the response of the inferred component across various categories. The y-axis represents the response magnitude, and the x-axis lists the categories: Music, Song, EngSpeech, ForSpeech, HumVoc, AniVoc, HumNonVoc, AniNonVoc, Nature, Mechanical, EnvSound, and SFX. The response is highest for EngSpeech and ForSpeech.

C10. Music

Bar chart for C10. Music from human ECoG. The chart shows the response of the inferred component across various categories. The y-axis represents the response magnitude, and the x-axis lists the categories: Music, Song, EngSpeech, ForSpeech, HumVoc, AniVoc, HumNonVoc, AniNonVoc, Nature, Mechanical, EnvSound, and SFX. The response is highest for Music and Song.

C11. Song

Bar chart for C11. Song from human ECoG. The chart shows the response of the inferred component across various categories. The y-axis represents the response magnitude, and the x-axis lists the categories: Music, Song, EngSpeech, ForSpeech, HumVoc, AniVoc, HumNonVoc, AniNonVoc, Nature, Mechanical, EnvSound, and SFX. The response is highest for Song.

C15. Speech

Bar chart for C15. Speech from human ECoG. The chart shows the response of the inferred component across various categories. The y-axis represents the response magnitude, and the x-axis lists the categories: Music, Song, EngSpeech, ForSpeech, HumVoc, AniVoc, HumNonVoc, AniNonVoc, Nature, Mechanical, EnvSound, and SFX. The response is highest for EngSpeech and ForSpeech.
